The Honorable Kay Granger  
Chairwoman  
House Committee on Appropriations  
Washington, D.C. 20515

The Honorable Rosa DeLauro  
Ranking Member  
House Committee on Appropriations  
Washington, D.C. 20515

Chairwoman Granger and Ranking Member DeLauro,

I am requesting funding for the Paradise Sewer Project – Regionalization Connection Payment in fiscal year 2024. The entity to receive funding for this project is the Town of Paradise, located at 5555 Skyway, Paradise, California 95969. The requested funds will fund the Connection Payment from the Town of Paradise to the City of Chico for the capacity of their Water Pollution Control Plant (464,000 gallons per day of wastewater). The Connection Payment, when received by the City of Chico, will be used for planned upgrades and adjustments to their Water Pollution Control Plant to accommodate the increased growth observed by the 2018 Camp Fire and planned Paradise Sewer Project. The project is an appropriate use of taxpayer funds because the Paradise Sewer Project is the culmination of over 50 years of efforts to modernize wastewater collection and distribution in Paradise. The lack of a sewer system has hampered the Paradise economy for decades and, after the Camp Fire, has stalled efforts towards economic recovery. The Paradise community has prioritized affordable housing, which has been difficult to develop to date without a sewer system to handle higher densities. Improving Paradise groundwater is also a community priority, which the sewer project would address by decreasing septic tank discharges.

The project has a federal nexus because the funding provided is for purposes authorized by Section 306 of the Consolidated Farm and Rural Development Act, 7 U.S. Code section 1926(a)(2).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

A handwritten signature in blue ink, appearing to read "Doug LaMalfa". The signature is fluid and cursive, with the first name "Doug" and last name "LaMalfa" clearly distinguishable.
